

Event Tent Marquee Accessories

To compliment our marquees we can offer a range of flooring to suit all budgets

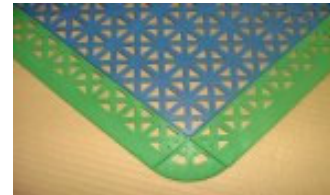

Softex is a British made breathable ground sheet, which gives added colour to your marquee and yet is kind to grass. Available in green, blue, grey or burgundy. Softex for your marquee comes with a free 16oz mallet and awning pegs. It is totally washable and samples are available on request. Also ideal for caravan and camping applications.

Code SF3x3 – SF6x12

Flexible Flooring is a medium range flooring product ideal for use indoors or outdoors. The floor is made up of tiles which measure 33cm x 33cm and are available in boxes of 18 tiles. Each box is approximately 2 sq metres. Colours available are grey green, blue and red. End and corner pieces are also available.

- Easy to fit – tiles just clip together – no tools or special skills required
- Can be laid on uneven surfaces
- Allows surface underneath to breathe
- May be easily taken up and moved
- Fits around any obstacle – easily cut to shape

Code FFB & FFCE

Interlocking Flooring is perfect for small or large events. It provides a solid base and a clean area for your guests as well as protecting the ground from damage. It is injection moulded from high impact plastic and formed into rectangular panels, which are linked together by a unique hinge joint. It simply clicks together, laid in minutes and easy to store. Non-slip surface and fully recyclable. Available in green, white, grey, black, blue, red and yellow. Ramps to edge the flooring are available in yellow and black. We can also offer a range of interlock flooring ideal for car parks. Please ask for more details.

Ideal for marquee and tent flooring, walkways, shed bases, pitch coverings, pet areas, storage sites, garden paths, dance floors....

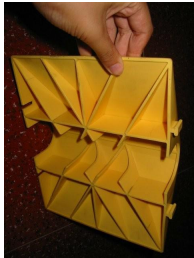

Code IFT & IFRAMP

Event Tent Marquee Accessories

Ramps

Code RAMP1

We can provide ramps for use with the marquees, which allow for wheelchair or pushchair access and their bright yellow colour makes them a must for avoiding tripping over ground bars! They are approximately 8" x 10" and will fit over the heavy duty and commercial event tent marquee ground bars and they slot together to form longer lengths.

Ground Bars

Code GR3x3 – GR6x12

These easy to attach ground bars sets are made from the same tubular steel as the marquees. They are ideal for giving the marquee added stability – particularly when using on a hard standing area such as concrete or tarmac. The pieces link together creating a flap around the bottom of the marquee to which the walls can be bungeed to stop flapping of the material. Weights can be added to the ground bars to provide more security.

Gutters

Code G6M – G12M

The heavy duty and commercial event tent marquees can be joined together to create larger structures. The guttering provides protection between adjoining roofs to prevent leakage.

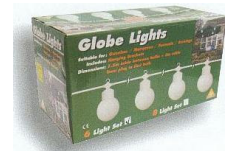

Spares

We can provide a comprehensive list of spare covers, poles, joints, bungees etc if you should need to replace any parts for your marquees.

Lighting

Code GL4 – GL8

We can provide sets of outdoor lighting for awnings, gazebos and marquees. All sets come with hanging brackets, 5M of cable from plug to the first bulb plus 1.5M between each bulb. They are available in sets of 4, 6 and 8.

Hanger Bars

Code MHB

The hanger bars are made from 25mm x 25mm x 2mm box section and are finished in zinc plate. They have special brackets on them, which fit over the tubular poles of the marquee. You can then hang products off them directly or use them as a fixing point for diagonal hanger bars which are used to display clothes, bags, blister packs etc.

The distance between each leg on the marquees is 2M - except on the 3M x 3M size and the hanger bar is made to fit between these 2M lengths. We can stagger them at different heights - as shown in the picture - so that they sit correctly, or we can make them shorter if required. They can only run down the length of the marquee, as there is no eave bar on the marquee depth.

Event Tent Marquee Accessories

Tables

Code MT

The tables can be made to any size and height specification required and we can make them with a top only or with two shelves as shown in the picture. They can also be made to fit the instant canopies and we include a bracket system to attach them to the legs to make the whole structure more secure. Again they are finished with a zinc electroplate. For prices please call with your requirements and we will be happy to provide you with a quotation.

Folding Tables

Code WFT1

This strong and sturdy folding table is excellent for marquee dining or product display. It is available in white and measures 182cm in length x 76cm in depth x 74cm in height.

Folding Chairs and Round Table

Blow moulded furniture range

Code WFC1 & WRT1

Folding chair is 53cm x 44cm x 100cm
Round Table is 1.2M in diameter

Halogen Heater

Code HH1

Features 3 power settings – 450/900/1350W with a remote control and the ability to oscillate 70 degrees. Other features include a switch off timer, automatic tip over protection, the casing is cool to the touch and it is available in white. Economy heating with instant warmth.
